

NOTES

- For details on the Central Nippon Expressway Pass (CEP), please contact the respective rental car agency, or use the form below.
<http://highwaypost.c-nexco.co.jp/sys/inquiry/en-entry/agree>
- In the cases below, CEP does not cover the entire use of the area whether a section covered by CEP was partially traveled or not.
●Entering and exiting outside CEP service areas. ●Use outside the preregistered period.
- If you enter at an interchange within a CEP service area and exit at an interchange outside a service area, or enter at an interchange outside a service area and exit at an interchange within a service area, CEP does not cover use of the section outside CEP service areas, and a separate expressway toll will be charged upon return of the rental car and ETC card. Note that it may take a while to confirm use of the expressway and to calculate additional tolls not covered by CEP.
- Before using CEP, read and consent to the usage agreement and ETC system regulations. You cannot change or cancel the CEP period after using it.
- Even if you are using CEP, the normal toll be displayed when passing a toll booth. If you meet the CEP conditions, the toll displayed will be not charged, and you only have to pay for a fixed toll.
- During winter (December - March), you should use rental cars equipped with studless tires.

Advice on operating a GPS car navigation system! Destination setting

YouTube

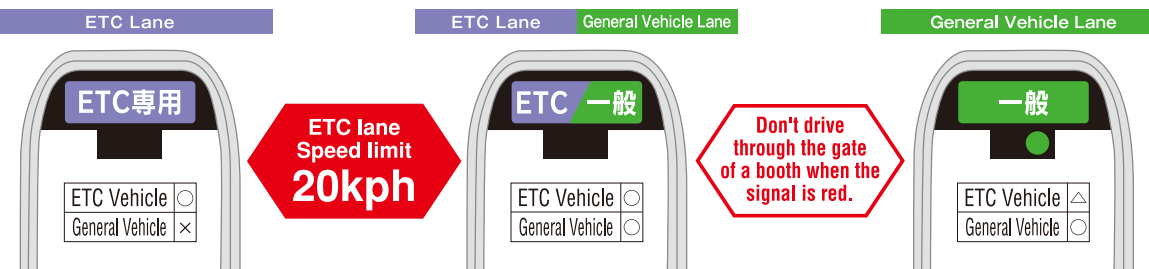

- Set your operating language by selecting a "language" (言語) from "setting" (設定).
- Destination setting is best done with a phone number or a map code. Every tourist facility listed in this booklet has a corresponding map code. For information on how to operate the car navigation system of your rental car, please contact your car rental company, because the operation method varies depending on the car navigation model.

Some of the typical operation methods of car navigation systems are also introduced in the YouTube clip "Driving SHORYUDO -Central Japan-."

Central Nippon Expressway Pass How to enter an expressway (through a tollgate).

Rent an ETC card(expressway toll card) beforehand from your car rental company, then enter the expressway through an "ETC dedicated" lane or an "ETC / general" lane. In certain situations, such as when your car is not able to pass through the ETC lane smoothly due to a communication error, please use a "general" lane, pull out the ETC card from your rental car's on-board ETC device, and wait for a tollbooth operator to attend to the situation. Please drive **through ETC lanes at 20 km/h or less**.

Japanese traffic signs which should be remembered

Traffic rules to be noted!

Note1 In Japan, fines for speeding are high.

Types of speeding	Amounts of fines	
	Large vehicles	Standard vehicles
Excessive speed of	At least 40 km/h and less than 50 km/h	Penalty
	At least 35 km/h and less than 40 km/h	¥40,000
	At least 30 km/h and less than 35 km/h	¥30,000
	At least 25 km/h and less than 30 km/h	¥25,000
	At least 20 km/h and less than 25 km/h	¥20,000
	At least 15 km/h and less than 20 km/h	¥15,000
Less than 15 km/h	¥12,000	¥9,000

*The fine ticket system for minor charges is not applied to the "Penalty" above, which is subject to a general criminal penalty. Penalty: A maximum of six years' penal servitude (cases of negligence are liable to imprisonment of up to three months) or a fine of up to 100,000 yen.

Note2 Roads in Japan are non-parking

Please note that roads in Japan are basically non-parking. Use a designated parking lot or a nearby pay-by-the-hour parking space at sightseeing spots or your accommodation. Fines for illegal parking are more expensive than parking fees!

Examples of information boards along expressways

This means that the route ahead of the information board on the expressway is blocked due to an accident. When you see this display, get off the expressway, and use the general roads.

This means that the section between Kameyama Junction and Suzuka Interchange is experiencing a traffic jam 3 km long. It will take about 10 minutes to pass through the congested section.

This means that when driving on the expressway between Shirotori Interchange and Hida-Kiyomi Interchange, cars are required to be equipped with winter tires, such as studless tires, or snow chains.

This means that the speed limit for the section between Nakatsugawa Interchange and Sonohara Interchange is currently 50 km/h due to rain. If there is no indication, the regular speed limit for an expressway in Japan is 100km/h. There may be cases where the speed limit is 80 km/h or lower.

Examples of Rental Cars

Nagoya Environs Map

If you plan to travel to Central Japan International Airport and Nagoya, we suggest applying for the optional (fees apply) unlimited drive package for the roads from Central Japan International Airport to Nagoya.

STEP 1

STEP 2

From the web site, check which rental car agencies carry Central Nippon Expressway Pass (CEP).

※CEP is carried at Central Japan International Airport (Nagoya), Kansai International Airport/Haneda Airport (Tokyo International Airport), Toyama Airport, Komatsu Airport, Narita International Airport, and at major train stations in Nagoya, Tokyo, Yokohama, Kanazawa, Toyama, Kyoto, and Osaka.※If using CEP, there are restrictions on which shop you can return your rental car to. Check details when booking your rental. If you plan to borrow and return your rental car at the same shop, all of the agencies support this.

Book a rental car (limited to standard automobiles), ETC card (expressway toll card), and CEP from a shop offering CEP.

※Note that rentals of light vehicles and other non-standard automobiles are not entitled to the fixed rate unlimited drive discount.

Technology makes it easy to drive in Japan

日本開車時的輔助機器 일본 내 드라이브를 도와주는 기술

Car navigation system 汽車衛星導航系統 카 내비게이션

Navigation systems help you to get to unfamiliar destinations. In addition to giving you directions, distances, and estimated journey times, car navigation systems have other convenient features and can make traveling by car much more enjoyable. Even so, it is better to use the system together with an up-to-date map.

到陌生的地方或在外國開車時，汽車衛星導航系統是必須用品。除了具有顯示路線、距離和所需時間等以外，還有許多方便的功能！使用習慣後開車兜風會變得更加有趣。但是，不能過度依賴，建議與地圖一起使用。

모르는 장소, 더구나 외국 땅을 달릴 때 카내비게이션은 필수품입니다. 길 안내와 거리, 소요시간의 표시 외에도 편리한 기능이 많습니니다. 잘만 사용하면 드라이브의 재미가 더 커집니다. 다만 과신은 금물. 지도와 함께 사용하는 것을 추천합니다.

How to set the destination

找尋目的地的方法 목적지를 찾는 방법

Screenshots are for typical navigation systems and may differ. 畫面顯示的例子。 화면표시는 예입니다.

To set the destination by entering a telephone number

用電話號碼查詢時 전화번호로 찾는 경우

On the 'Destination' menu, touch Phone No. 觸碰「Destination Menu」畫面上的 Phone No. 「Destination Menu」 화면의 Phone No. 를 터치
If searching by a phone number, be aware that some numbers may not be registered. If in doubt about the destination, stop the car and ask for directions.
用電話號碼查詢時，有未登記的情形，不是萬全的。迷路時請停車詢問路人。
전화 번호 입력은 해당 번호가 등록되어 있지 않은 경우도 있어서 안전하지 않습니다. 만약 길을 헤맸다면 차를 세워서 주변 사람들에게 여쭙보십시오.

To set destination by entering a MAPCODE

用地圖編號查詢時 맵코드로 찾는 경우

On the 'Destination' menu screen, touch MAPCODE 觸碰「Destination Menu」畫面上的 MAPCODE 「Destination Menu」 화면의 MAPCODE 를 터치
A MAPCODE is a number of 6 to 10 digits that references a particular place in Japan. It's easy for you to enter the destination, which the car navigation system can then look up.
地圖編號是指輸入衛星導航系統上指定的編號(6~10碼)，簡單方便地設定目的地的號碼。
맵코드란 내비게이션에 지정번호 (6~10자리수)를 입력하면 쉽게 목적지를 설정할 수 있는 편리한 번호입니다.

Touch Yes 觸碰 Yes Yes 를 터치

When the destination is indicated on the screen map, touch Go Here. 目的地顯示在地圖上後觸碰 Go Here. 목적지가 지도에 표시되면 Go Here 를 터치

Touch OK to set the destination. 再按 OK 設定完成. OK 를 터치하고 완료

It is possible that alternative routes to your destination will be suggested. It is probably better to either select an easy-to-follow route via expressways or the [Recommended course] route. 有多條抵達目的地的路線時，建議選擇使用簡單明確的高速公路路線，或是「推薦路線」。 목적지까지의 경로가 여러 개 있는 경우는 고속도로를 이용하는 것이 쉬운 경로 혹은 "추천코스"를 선택하는 것을 추천합니다.

ETC

The ETC (electronic toll collection) system scans an ETC card fitted on vehicles to log entry and exit from toll roads. Charges are then automatically deducted from a credit card account. Data is read from moving vehicles: you do not have to stop or deal with money at the toll gates.

ETC是指將ETC卡插入加裝於汽車上的ETC卡機器，用以車輛行經收費道路的收費站時，不用停車就可以支付過路費的付費系統。

ETC란 자동차에 부착된 차제기에 ETC카드를 장착함으로써 유료도로 요금소에서 차량을 세우지 않아도 통행료를 지불할 수 있는 시스템을 말합니다.

How to borrow an ETC card

When you rent a car, get one with an ETC card.

Use the car fitted with an ETC card.

When you return the rental car (and ETC card), settle the ETC charges.

- ◆ Some rental car branches do not provide ETC card loan services. Confirm in advance.
- ◆ ETC card loans cannot be provided for one-way rentals (different pick up / drop off locations).

有關租借ETC卡事宜

租車時可以租借ETC卡。

將ETC卡插入汽車上的ETC卡機器中使用。

還車時，支付ETC卡的使用費用。(歸還ETC卡)

- ※有不出借 ETC 卡的店鋪。請事先確認。
- ※使用異地還車時，原則上無法租借 ETC 卡。

ETC카드 대여에 대하여

렌터카 대여시에 ETC카드를 빌린다.

ETC카드를 차제기에 꽂아서 사용한다.

렌터카 반환시에 ETC카드 이용요금을 지불한다.(ETC카드는 반납)

ETC 카드 대여 서비스가 없는 점도 있습니다. 미리 확인해 주십시오. 원웨이 이용의 경우 ETC카드는 원칙적으로 대여 불가능합니다.

- Prevent head or chest injuries if an impact occurs.
- The passenger is not thrown out of the car.
- Protect the passenger if the car is involved in an accident when the car rolls.
- Keep good posture while driving.
- Protect passengers from being injured if an impact occurs.

- 衝突時に頭や胸を守ります。
- 車外に放り出されません。
- 横転事故などから守る。
- 運転姿勢が良くなる。
- 同乗者への衝突の防止。

A seat belt is a life line that protects the life of the driver or passengers. All occupants must fasten their seat belt.

シートベルトは運転者・同乗者を守る大切な命綱。全席シートベルトを着用しましょう。

Fastening seat belts is a requirement in Japan for all passengers in a car, including persons in rear seats.

日本では、後部座席も含め、全席のシートベルト着用が義務付けられています。

Failure to fasten a seat belt is a violation of the law and drivers are punished with an assignment of one demerit point.

シートベルトを着用していない場合には違反となり、高速道路においては運転者に違反点数1点が付されることになります。

It is also mandatory to seat a six years or younger child to a child seat.

また、6歳未満のお子様を同乗させるときは、チャイルドシートの使用が義務付けられています。

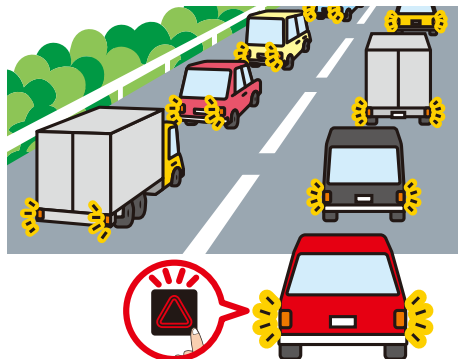

Please make sure that whenever a child of six years of age or under is in the car, the child seat should be properly installed and the child should be fastened with a seat belt!

6歳未満のお子様に乗車される場合には、必ずチャイルドシートを正しく取り付け、ベルトの着用をお願いします。

How to Use ETC

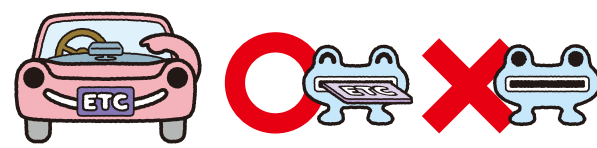

ETCの使いかた ー快適なドライブをお楽しみいただくために

Set the ETC card properly

ETCカードをきちんと設置します

If your ETC card is not properly inserted into the onboard unit the gate will not open. The primary reason for ETC system failure is improperly inserted ETC cards. Ensure you have not forgotten to insert your ETC card and check that it is properly in place before going through an ETC gate.

ETCカードが車載器に正しくセットされていないと、開閉バーは開きません。開閉バーが開かない主な原因は、ETCカードの挿し忘れや挿し込み不良です。ETCカードの挿し忘れに注意し、ETCカードを確実に挿入し、必ず動作確認をしてください。

Warning antenna transmitters

Transmitter antennas are installed on expressways to warn about improper functioning ETC cards.

If your ETC card is improperly inserted, your onboard unit will make a warning sound or voice alert to inform you.

警告アンテナ

高速道路上には、「ETCカード未挿入お知らせアンテナ」を設置しています。ETCカードが正しくセットされていない場合、車載器から音声や警告音で不具合をお知らせします。なお、不具合のお知らせがあった場合は、ETCをご利用できませんので、係員のいる一般レーンをご利用ください。

Drive under 20 km/hr in ETC lanes

ETCレーンでは20キロ以下で走行してください

Slow down to less than 20 km/hr when entering an ETC lane and drive through only after verifying that the gate has opened.

ETCレーンでは時速20km以下に減速して進入し、レーン内では徐行して開閉バーが開いたのを確認してから通行してください。

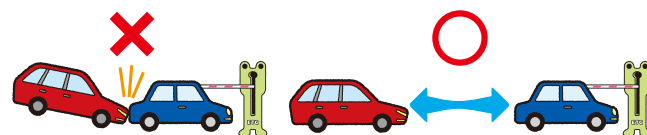

Maintain ample distance between the vehicle ahead when entering an ETC lane

ETCレーンでは十分な車間距離を保持してください

The vehicle ahead of you in an ETC lane may stop suddenly. Please keep enough distance in front of your vehicle for you to stop in time.

前のクルマがETCレーンで急停止する場合があります。十分な車間距離をとるようにしてください。

If an error occurs as you enter an ETC lane, use a regular paying toll (non-ETC) lane when exiting

進入の際にエラーが発生した場合、降りる際には一般レーン (非ETC) を使ってください。

If the gate does not open at the entrance to the ETC lane, follow the interphone instructions of the toll booth personnel in order to receive a ticket. If the gate opens, but the onboard unit informs you of an error once you pass through the gate, do not use the ETC lane to exit the expressway, but instead use an attended regular paying toll lane and inform the toll booth personnel of the situation.

入口料金所で開閉バーが開かなかった時は、インターホンからの料金所係員の指示に従い、通行券をお取りください。また開閉バーが開いても、ゲート通過後に、車載器から「エラー」が通知されることがあります。このような場合、出口料金所ではETCレーンでなく、係員のいる一般レーンをご利用いただき、その旨お知らせ下さい。(エラー通知例:「カードを確認してください (音声)」[「ビービービー (警告音)」など])

Be careful of the gate not opening at the exit

開閉バーが開かない場合は要注意です

Four-wheeled vehicles

There is a danger that a vehicle behind you may fail to stop. Do not reverse your car in an attempt to back out of the lane. If the gate does not open, inform the toll booth personnel using the interphone in the ETC lane and follow their instructions. Do not leave your vehicle and walk on the expressway.

四輪車の場合

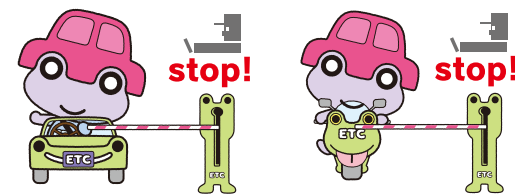

後続車に追突される危険がありますから、絶対にクルマをバックさせないでください。開閉バーが開かなかった時は、ETCレーン内のインターホンで料金所係員に連絡し、指示に従ってください。またクルマから降りて高速道路上を歩くことは絶対におやめください。

Riding motorcycles

Pay sufficient attention to the gates and cars behind you, then exit the ETC lane by negotiating through the closed gates while ensuring your safety. After reaching a location where it is safe to park, verify your safety and notify NEXCO Central about the situation without delay and follow their instructions.

オートバイの場合

開閉バーおよび後続車両等に十分注意を払い、安全を確認の上、開閉バーを避けてETCレーンから退避してください。駐停車が禁止されていない場所から安全を確認の上、遅滞なくETCレーンを管理する高速道路会社・公社に連絡し指示に従ってください。

Be careful not to drive in the Wrong Direction on Expressways!

高速道路での逆走にご注意下さい!

Road traffic travel is on the left hand side in Japan. Please be sure not to enter expressways in the wrong direction when drivers are entering or leaving an expressway or a rest facility.

日本の道路は、左側通行です。高速道路入口や、休憩施設から流出する際に、逆走しないよう注意して下さい。

If you realize that you are going the wrong way or have missed an exit, keep on going until you reach the next interchange before getting off the expressway, re-enter from the right entrance toward your destination.

行き先を間違えたり、目的のインターチェンジを行き過ぎてしまっても、次のインターチェンジまで進み、一度流出した後、正しい方向へ走行して下さい。

Turn on your hazard lamps to notify the vehicles following you are involved in an accident. Once the car comes to halt, use flares and emergency triangles to inform the accident to other motorists.

ハザードランプをつけ、後続車に合図をしてください。停車後、発煙筒や停止表示板で更に合図を!

In order to prevent a rear-end collision by the traffic following, turn on your hazard lamps so others will be aware that an accident or car breakdown has occurred. If your vehicle breaks down, do not stop immediately, but rather, gradually reduce your speed and pull over the shoulder or a designated emergency parking area whenever possible. Once your vehicle completely stops, place flares and the emergency triangle behind your vehicle so other motorists will be aware that an accident or break down has occurred.

後続車からの追突事故防止のためハザードランプをつけ、事故・故障発生時の合図を行ってください。なお、故障の場合は、急ブレーキをかけずに緩やかに減速し、極力路肩や非常駐車帯に停車させてください。停車後は発煙筒や停止表示板で、後続車に事故車や故障車の存在を知らせてください。

Being careful of passing vehicles the driver and passengers must get out of their vehicle and quickly evacuate to a safe location, such as off the road behind the guard rail.

運転者も同乗者も通行車両に注意しながら車を降り、ガードレールの外など安全な場所にすみやかに避難してください。

Waiting inside, in front of, or behind your broken vehicle is dangerous, because other coming motorists could cause a rear-end collision. Quickly evacuate to a safe location, such as off the road behind the guard rail. Many accidents, which have included that coming motorists hit or killed people standing in front of or behind their broken car or on the shoulder, have occurred.

Representatives of Japanese cuisine "Soba" "Sushi" "Tempura." Buckwheat flour is made from the seeds of small white flowers. Soba is made by mixing buckwheat flour, flour, and water. They are traditional Japanese noodles. Soba has been eaten since before the Nara era(710-794), but has only been consumed in the form of noodles since the 16th century or the beginning of the 17th century. There are many kinds of sushi. Hand-pressed sushi uses vinegared rice which gently grasps the "tane", usually seafood, but on the expressway, Chirashi-sushi, which is vinegared rice in a vessel with the "tane" on top (also called Edomae-chirashi, or Kaisendon), is often provided. Tempura is a dish cooked with eggs and "koromo" made from flour. On the expressway, many restaurants offer a soba and sushi set.

Lake Hamana Eel (Unagi)

The eel is one of Hamamatsu's most famous products. Eel farming started in Lake Hamana in 1891, and today, Lake Hamana has become a synonym for safe, high-quality eels in Japan. Some restaurants specializing in eel dishes are found near JR Hamamatsu Station. There are also many eel shops run by eel producers near Lake Hamana.

People in Hamamatsu are some of the top consumers of gyoza dumplings. Hamamatsu gyoza is made with local ingredients and often served with boiled bean sprouts on the side. Today, Hamamatsu gyoza has drawn attention as

Hamamatsu gyoza (dumplings)

a local inexpensive specialty food and many gyoza fans come here from around Japan. There are more than 300 stores and restaurants that sell gyoza in Hamamatsu.

Snow Play

Nagano Pref.

Playing in the snow is one of the most exhilarating ways to enjoy winter in Nagano. You don't have to go to the trouble of learning how to ski or snowboard - playing in the snow can be as fun as just having a snowball fight. For more excitement, snowmobiling is an exciting option, with children's models for kids 5 years old and up, and light ones for ladies available, too. There's also snow rafting - getting towed behind a snowmobile on an inflated "banana boat". Several ski areas also offer snow cat rides.
